

General Order Number 24

October 1, 2012

To Officers and Members

Johnson Creek Fire & EMS Department

Effective October 1, 2012

On-scene accountability is of critical importance as it pertains to firefighter health and safety. To this end, all company officers will gather personnel accountability tags as soon as possible when it is determined who will be riding on the same apparatus. These name tags will be placed on the Velcro tags that designate the apparatus. One tag will remain on the officer's door, or dash area. The other tag will be placed on the underside of the officer's helmet.

It is of extreme importance that these tags are accurate!

At the scene of the emergency, the Incident Commander, or a designee will pick these tags up as soon as possible to determine who is on location.

This order will take effect and be in force on and after 0700 hours on the date indicated.

David F. Peterson

Fire Chief
