

General Order Number 31

November 5, 2012

To Officers and Members

Johnson Creek Fire & EMS Department

Effective November 5, 2012

Starting Procedure for TNT Power Packs

Honda small engines on our fire engines 21 and 22 power the TNT Power Packs.

These Honda engines should be stored in the following way:

- Gas Off
- On/Off switch placed to On
- Choke set to full
- Throttle set to full

Upon use of this small engine all that is needed is to turn the gas on, pull the cord until it starts and then turn the choke off.

This is a very simple system to obtain a fast start in any weather, environment, or situation.

This order will take effect and be in force on and after 0700 hours on the date indicated.

David F. Peterson

Fire Chief
