Garbage/Recycling update from John's Disposal:

Because of the time it will take to collect all of their bins, John's will be doing a sweep through the village on Thursday to collect any carts that are already out because the residents are out of the area or forgot about the change in the normal collection day. This is an optional collection, and choosing this option may leave you without a replacement bin until Friday.

John's Friday collection will also occur like normal, and they will continue collections into Saturday if there are more bins yet to be collected.

Once you put your John's garbage/recycling bins out (by Friday at 6:00am), please leave them out until John's Disposal has an opportunity to empty and remove them.

Thank you all for your help with this transition.
